MORE THAN T-SHIRTS

Editorial

35. This number sounds like a milestone, a landmark or even a celebration. This 35th Solo's catalogue marks a key moment: a new step for our brands, our teams, our partners and all those across Europe and beyond who make customisable textiles a powerful image and communication tool.

Passion, drive, responsiveness and quality are the pillars of our DNA. But more than that, they are working principles, driving forces, collective landmarks and deep values that set the course for the future.

This 2026 catalogue is once again proof of our commitment to go further in making image and communication clothing **more modern, more attractive and more desirable.** Responsibility also means this: a beautiful, well-designed and well-thought-out garment is one that people keep and value. We are proud to foster this aesthetic requirement, particularly through our collaborations with fashion designers. Our goal is clear: to elevate the entire industry.

As for the **quality,** it is non-negotiable. Quality of materials, finishes, cuts, as well as quality of the image these garments convey. Because every item in this catalogue is designed to best represent the identities, values and communication needs of those who wear them. In a world where every detail matters, we strongly believe that a well-thought-out garment is a powerful lever for visibility and engagement.

Though, being a leader nowadays also means taking responsibility. With our **Act4u** plan, we have laid down a clear framework to act in a responsible, transparent and demanding manner, on both environmental and social fronts. Yet we aim to go further by encouraging our market to transform and to offer advertisers more clarity, more proofs and more trust.

This catalogue reflects this ambition. It is a testament to an industry that is modernizing, evolving and no longer considers communication and awareness as opposites. We are proud to continue playing a leading role, true to what has driven us from the beginning: doing things well, fast, with passion and never stopping doing them better. Welcome to this new chapter.

Audélia Krief
CEO

SOL'S®

the fair spirit

Since 1991, SOL'S has been shaping a vision of textiles where every garment becomes a medium of expression. Behind every brand, event, or commitment, there is a message to be conveyed. From iconic basics to bolder pieces, SOL'S helps brands express their identity and values through a durable collection, designed to meet every need.

Today, the range is organised into five clear segments, tailored to market expectations, to be discovered in the following pages.

BASIC

SOL'S BASIC - Built for impact. Priced for success.

Unbeatable-value basics, designed for large-scale operations, events and promotional campaigns. A simple and accessible range, ideal for spreading a message to as many people as possible without compromising on budget.

ESSENTIAL

SOL'S ESSENTIAL - Core. Timeless. For all.

The heart of the SOL'S range: essential models, designed to last and adapt to every setting. Available in a wide variety of sizes and colours, these references meet the needs of all brands across all markets. Essentials created to transcend seasons, styles, and identities.

EDITION

SOL'S EDITION - Modern pieces. Built to elevate.

A collection designed with care, where every fabric, every finish and every line has been crafted to affirm a style. SOL'S EDITION offers contemporary garments, distinguished by meticulous attention to cuts, textures and details. A demanding line, created for brands seeking a more refined silhouette and a stronger visual impact.

ACTIVE

SOL'S ACTIVE - Engineered for movement. Built for performance.
A range designed to support movement in every situation. With technical fabrics, functional cuts and optimal comfort, SOL'S ACTIVE meets the needs of teams, events and sports activities. Garments created for action, visibility and efficiency in the field.

PTSF

SOL'S PTSF - Make a statement with streetwear.
A collection inspired by urban culture, vintage archives and the aesthetics of independent creators. Strong silhouettes, distinctive textures, iconic details: PTSF offers standout pieces, designed to make an impact. Directed by Pablo Attal's artistic vision, this line speaks to creative brands, emerging labels and cultural worlds that use textiles as a means of expression.

NEO BLU

PEOPLE IN MOTION

The brand that rewrites the rules of corporate clothing by updating key wardrobe classics in a casual, cool, smart and stylish way.

NEO BLU

act4u

Pioneering a high-performing sustainable personalization industry

Ethics have always been central to Solo's activities. We believe high standards and responsibility can go hand in hand, by cultivating respectful relationships with our teams, partners, and clients. Every decision we make aims to create high-quality products, designed with care and respect for people and the environment.

Act4u reflects our commitment to take concrete action, to go further each year and to address challenges in order to positively transform our industry. **This plan guides our CSR approach with a clear direction and well-defined priorities and progress. It enables us to act methodically, with transparency and ambition.**

The "U" stands for "union" as well as for "you", because transforming our industry is a collective effort that involves all of us.

Act4u is based on four pillars

U are the PLANET :
reducing our greenhouse gas emissions across the entire supply chain, aligned with the Paris Agreement and the European Green Deal.

U are the CHANGE :
sharing our knowledge and experience with our clients, partners and suppliers to support them in their actions.

U are the PEOPLE :
establishing and promoting ambitious social standards across our value chain and guaranteeing human rights, safety and dignity at work.

U are the PROMOTER :
ensuring the transparency of our actions through audits and certifications, and by being involved in several international associations with the main players in the industry.

Today, our actions cover 100% of our garments' life cycle

Breakdown of carbon footprint across each stage of a product's life cycle*

38%

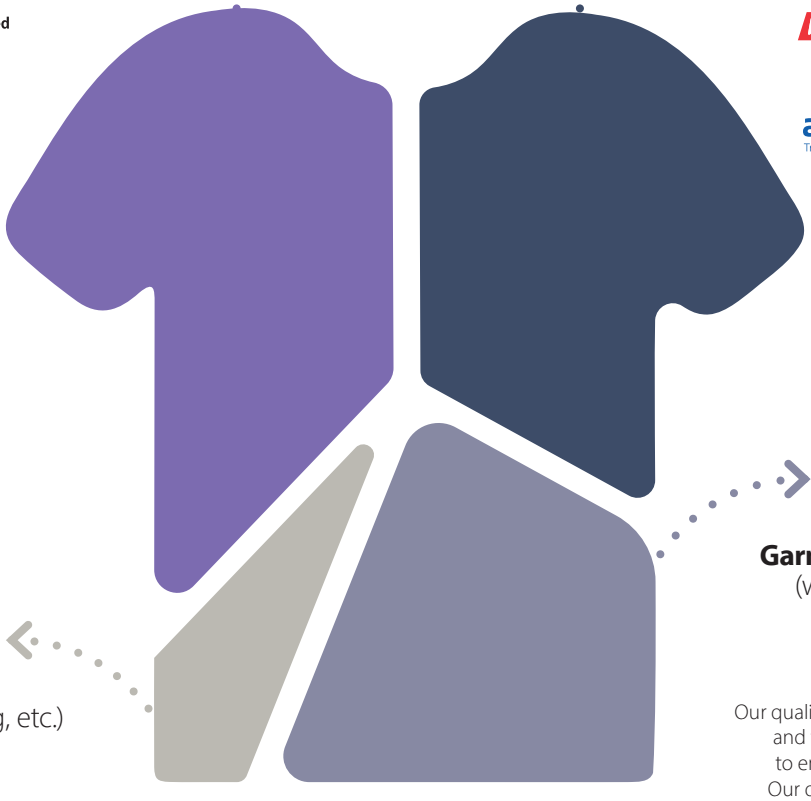
Raw material manufacturing

By the end of 2026, our goal is that at least 90% of the cotton we purchase is organic, recycled or in accordance with the BCI standards. Since 2024, we have also been gradually replacing virgin polyester in our collections with recycled polyester. And this approach goes further every year.

33%

Garment's manufacturing (spinning, weaving, dyeing, sewing)

Solo requires all its suppliers to follow its **Code of Conduct** in line with the core conventions of the International Labour Organization (ILO). We work with factories that meet the OEKO-TEX® STANDARD 100 requirements for chemicals, helping to reduce the environmental impact of our products.



6%

Other (transport, packaging, etc.)

We prioritise sea freight over air freight. Our packaging is 100% recycled and/or recyclable. Moreover, since 2023, we have reduced our packaging use by switching to master polybags and eliminating individual packaging and unnecessary accessories.

23%

Garment's life and end of life (washing, ironing, drying, recycling, etc.)

Our quality team selects hard-wearing materials and tests them annually in laboratories to ensure long-lasting wear resistance. Our designers create timeless garments, to be worn often and kept longer. By focusing on **quality and style,** we encourage users to wear them longer and to reduce their environmental impact.

Markets

Publicity and promotions

Customised clothing is great for publicity and promotions provided it is well-fitting, good quality and suited to the needs of the people wearing it. T-shirts, sweatshirts, polo shirts and more: Solo fully meets all market needs.

Workwear and PPE

Workwear trousers, polo shirts and jackets as well as T-shirts and sweatshirts can be personalised for staff working on sites or for independent businesses. Corporate equipment and technical or protective clothing to guarantee employees are comfortable.

Corporate, hospitality and catering

Providing the right clothing for service and reception staff in the hotel and catering industries is essential to ensure that brands stand out from the competition and are recognisable to their customers. Shirts, jackets, aprons and trousers can be personalised to create corporate team uniforms.

Schools and universities

Echoing American college traditions, students all over the world proudly show off their allegiance to their college or university. Their favourite outfits include T-shirts, hoodies, baseball caps and jackets. Our ranges offer a wide selection of styles and colours.

Souvenir & tourism

For gift shops in tourist offices, museums, theme parks or castles, personalised clothing is essential: branded or embroidered T-shirts, sweatshirts, baseball caps, tote bags or towels are the favourite souvenirs amongst visitors and tourists.

Music and Event Merchandising

For organisers of concerts, festivals, celebrations, and public events, the merchandise store is an essential source of additional revenue—where customised apparel plays a key role.

Sports and leisure

For major sporting events where participants and supporters like to show their support by wearing their team's colours, or for sports clubs or groups looking for matching kits. But also for employees taking part in a race or a sporty teambuilding event.

Designers, retailers & e-tailers

Ready-to-wear brands, designers or e-commerce platforms: express your creativity by customising garments to suit your needs through flocking, silkscreen printing, printing or embroidering.

Textile innovation:

perfectly stable light colours, even after going through a tunnel dryer with high temperatures!

SOL'S, always in tune with the market, innovates with a new dyeing process for light colours. This technology offers greater resistance to yellowing, even at high temperatures, guaranteeing our T-shirts durability and brightness, to better meet our customers' needs.

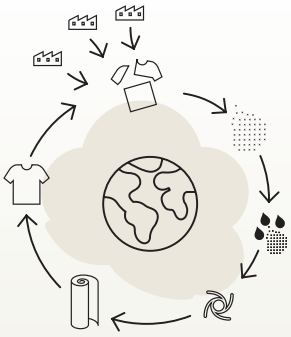
Best seller - Recycled



Recycled cotton: how is it done?

There are several ways to recycle cotton. At Solo, we only use «pre-consumer» recycled cotton.

This involves recycling fabric scraps generated during the manufacturing of garments.

These fabric pieces will follow the exact same process as conventional cotton: they will be transformed into fibers, spun, knit and dyed (in order to guarantee colour consistency).

3 YEARS

'organic – in conversion'
IDFL 011172

IC2 (en conversion)

When cotton farmers decide to switch to organic farming, they start applying organic methods from the first year. However, it is considered that it takes 3 years for the soil to eliminate all traces of chemical agents. That is why cotton, although grown according to the constraints of organic agriculture, can only be certified organic after 3 years. During the transition period, it is referred to as «in conversion».

SOL'S TUNER

Product history

Since 1990, Direct to Garment (DTG) technology has continuously improved, focusing on quality, speed, versatility, durability, and automation.

We have designed a new fabric that perfectly meets the requirements of digital printing while selecting high-performance dyes and textile auxiliaries:
SOL'S TUNER was born.

It is this combination that offers a perfect solution for digital printing, allowing for excellence and consistent production.

3 key facts

COTTON USA ™

The SOL'S TUNER t-shirt is made of 100% high-quality cotton, grown in the United States.
In line with certification requirements according to US guidelines and PROP 65.
Learn more: https://www.cottonusa.org/

Comfort and trendy sizing

When we created SOL'S TUNER, we wanted everyone to feel comfortable wearing it.
We opted for a comfortable sizing to offer a more universal and trendy fit.

Excellent product quality

We adhere to retail quality parameters, which include pre-shrinking the fabric, controlling twisting, and colour change after repeated washing cycles. We also adhere to the most reliable and consistent supply chain standards to meet the strictest licensing requirements.

Textile innovation:

perfectly stable light colours, even after going through a tunnel dryer with high temperatures!

SOL'S, always in tune with the market, innovates with a new dyeing process for light colours. This technology offers greater resistance to yellowing, even at high temperatures, guaranteeing our T-shirts durability and brightness, to better meet our customers' needs.

Organic Certifications

When we say that a garment is certified organic, it means that it has obtained the label issued by a certifying body.

This organisation ensures that each step of the product's manufacturing process meets the strict standards of the label.

Solo markets organic cotton garments under the OCS (Organic Content Standard) label: OCS 100 and OCS BLENDED, as well as models made from cotton in conversion under the GOTS (Global Organic Textile Standard) label.

The certifying body ensures the traceability of our products. Its role is to trace the material and ensure that throughout the production chain, organic cotton is never mixed with conventional cotton.

ORGANIC 100 content standard

IDFL TE-99972636

This certification covers the processing, manufacturing, packaging, labeling, marketing, and distribution of any product containing at least 95% certified organic materials.

ORGANIC BLENDED content standard

IDFL TE-99972636

This certification applies to garments made from a blend of organic cotton and other materials. This standard indicates that the garment is composed of a minimum of 5% certified organic cotton.

GLOBAL ORGANIC TEXTILE STANDARD · GOTS ·

IDFL 011172

This certification guarantees that a minimum of 95% organic fibers make up the product and that, from the production of the raw material to the production of the finished product, the processes used are socially responsible and environmentally friendly. This certification covers all stages of manufacturing up to the sale to the end customer.

Organic Cut and Sewn

The SOL'S LEGEND t-shirt is the first SOL'S model made from combed organic cotton, cut and sewn. This jersey, grown without pesticides or herbicides, is smooth, durable, and ideal for customization.

Unlike tubular cutting, the cut-and-sew construction assembles the front and back with side seams.

This method offers several advantages: it adapts to body shape, reinforces the fabric, and makes the work of screen printers easier.

New SOL'S LYAM T-shirt

The SOL'S LYAM T-shirt introduces a new generation of comfort and performance.

An exceptionally soft handfeel and a smoother surface providing a silky, premium finish.

An improved drape and an enhanced dimensional stability limit shrinkage and maintain the garment's shape wash after wash. A measured "cool feeling" effect (Qmax) offers instant freshness. Wicking properties that efficiently draw moisture away from the skin. Better colour fastness and increased wrinkle resistance ensure a clean look all day long. A next-generation T-shirt combining technical comfort with discreet elegance.

Recycled cotton from our own scraps

During the cutting of a garment, on average, 20% of the material is lost and discarded. For the production of our SOL'S ODYSSEY t-shirt, we collect our scraps and recycle them to turn them back into fabric.

For greater environmental respect, we do not dye this new fabric. Indeed, this step in the production process requires a lot of water and energy, which is why we collect the waste by colour. This explains the slight variations and irregularities in colours in the finished product, which significantly reduces the environmental impact.

Atelier Textile Français

Beyond meeting a strong demand, offering clothing and accessories made in France, as ATF does, is a virtuous global approach. Indeed, this contributes to the creation of direct and indirect jobs in France, the development of lost know-how, and the re-industrialization of the territory for greater autonomy.

The quality of our clothing is guaranteed by the expertise of the various workshops that work on the production of our garments.

Fully pretreated

RTP VISION is a revolution in digital printing, offering an unlimited print area thanks to pre-treatment over the entire surface for 360° printing. There are no limits in terms of print area: you can personalise the front, sleeves, back, collar, and even the inside.

How to Print on an RTP APPAREL T-Shirt

The drier the T-shirt, the better the print.
Apply a 5–10 second pre-press to remove moisture and flatten the fabric for a cleaner result.
Then print using your regular settings, or adjust mask and highlights if needed.
Cure with a heat press or dryer — and you're good to go!

French terry

French terry, also known as loopback knit, is ideal for making sweatshirts. Lighter and less warm than fleece, it is comfortable in any season.

French terry is recognisable by its loops on the back of the fabric. These loops make it particularly comfortable and give it absorbent properties.

You can find it, for example, in our range of eco-friendly sweatshirts SOL'S Calipso and SOL'S Constellation, or in the SOL'S Jet jogging pants.

Unbrushed - Organic

AWARE
THE TRUE STORY OF RECYCLED FABRICS

Aware™ is an innovative start-up that provides transparency and traceability to consumers.

To do this, trackers are integrated into the fiber, they are the unique identifier of the material and will record information from each step of the garment manufacturing process.

Several pieces of information are collected (factory name, address, manufacturing process): they constitute the digital passport of the product and are stored in the trackers.

All this information is certified and accessible via a QR code on the label, allowing users to know everything about the garment they are wearing and that the fiber used is the same from beginning to end of the chain.

To learn more: https://wearaware.co

THE SHIRT ART

CHOOSE THE RIGHT MODEL

COLLARS

Classic collar

The classic collar is the most common type and is slightly spread. This traditional model is a must-have, ideal in all circumstances and suitable for both business and casual styles.

SOL'S BALTIMORE FIT
p146

Italian collar

Fairly similar to the French collar, it is characterised by a wider opening and slanted points, cut away from the perpendicular.

NEOBLU BLAISE MEN
p155

Button-down collar

The distinguishing feature of this collar resides in the buttons that fasten its points. They give a good support to the collar.

SOL'S BOSTON
p148

The revisited button-down collar

Inspired by the classic button-down collar, this version features small buttons hidden beneath the collar points for a stylish look.

NEOBLU BENNETT
p158

Stiffened collar

This option is available for some of our shirts. It is possible to offer a better support to the collar by adding stays on its points, which prevent it from deforming. Thus, the stiffened collar gives the shirt a chic and dressy style.

SOL'S BRISBANE
p149

The mandarin collar

The mandarin collar is a simple collar stand with rounded corners. It is easily recognised as it has no flap.

NEOBLU BART MEN
p157

PLACKETS

French placket

SOL'S BRIGHTON
p150

Conventional placket (American placket)

SOL'S BOSTON
p148

Concealed placket

NEOBLU BART MEN
p157

CUFFS

Bound slit

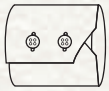
The bound slit is located at the wrist level. It is a pointed slit that gives a smart finish to the shirt.

SOL'S BRODY MEN
p154

Adjustable cuff

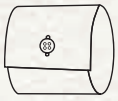
More comfortable

SOL'S BALTIMORE
p146



2-button cut corner cuff

SOL'S BRIGHTON
p150



1-button square cuff

SOL'S BARRY MEN
p154

FABRICS

Herringbone

Herringbone fabric adds a refined touch to shirts, for a dash of originality. This fabric is soft and silky, making it easy to iron.

Cotton micro twill

Soft and comfortable fabric for easy-to-wear garments.

Piqué cotton

Cotton piqué creates a stylish yet casual look.

Denim

Renowned for its durability, denim lends itself to corporate wear as well as casual styling. A timeless, must-have fabric in your wardrobe.

Mercerised cotton jersey

Mercerised cotton showcases the strength and silky appearance of cotton, with a very soft feel.

Oxford

Strong fabric with visible grain. The Oxford construction combines value and tradition.

Polycotton poplin

Made out of polyester and cotton fibres, it combines the strength of polyester with the comfort of cotton, offering a very easy care.

Stretch poplin

Lightweight and comfortable to wear. The stretch material allows great freedom of movement.

CUTS

CHOOSE THE RIGHT CUT FOR YOUR SHIRT

SOL'S BRODY MEN
p154

Straight cut

Unfitted cut, straight fall.
A loose fit that prioritizes comfort.

SOL'S BALTIMORE FIT
p146

Adjusted cut

A modern and the most universal cut, suited to the majority of men. This cut is slightly tighter around the chest so as to emphasise the silhouette without being too close-fitting. Ideal for the Corporate range.

SOL'S BLAKE MEN
p152

Slim fit

Closer to the body and fitted at the waist, it is a cut that hugs the curves and really enhances the silhouette.

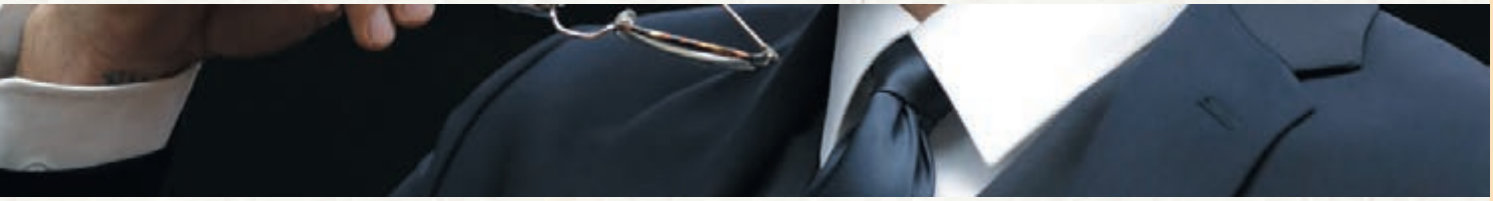
SOL'S EDEN
p150

Fitted cut

Essential cut of the women's closet, it highlights the waist of women. Wider at the chest and hips, it remains comfortable and chic.

THE ART OF THE SUIT

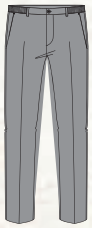
CHOOSING THE RIGHT MODEL



CONVENTIONAL LOOK

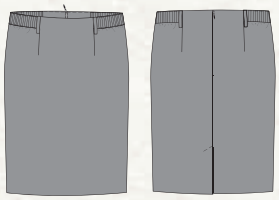
NEOBLU Marius
p169

Fully lined twill suit jacket. Its notched collar, flap pockets, and back vent make it the ideal jacket for a flawless look.



NEOBLU Gabin
p166

With its invisible elastic waistband, these suit pants are particularly suited for a formal, elegant yet contemporary look.



NEOBLU Constance
p165

Elegant and sophisticated, this knee-length straight skirt can be worn in endless ways. Its elastic waistband and invisible zip closure at the back make it both comfortable and stylish.

NEOBLU Max vest
p169

The ultimate piece of the 3-piece suit, the vest is the extra touch that makes a difference in terms of elegance. Its 5 buttons, welt pockets, and back strap all contribute to the comfort and style of the wearer.

ELEGANT AND CASUAL LOOK

NEOBLU Marcel
p167

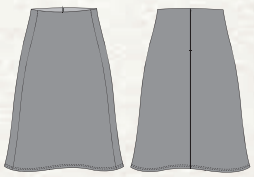
Semi-lined suit jacket. Its classic cut combined with its quilted knit make it the ideal jacket for an elegant yet casual look.

NEOBLU Germain
p166

The ultimate unisex pants, NEOBLU GERMAIN has the look of a modern suit pants and the comfort of joggers. Perfectly suited for urban mobility, it offers remarkable comfort thanks to its elastic waistband and drawstrings.

NEOBLU Camille
p165

Simple and contemporary, the short-sleeved midi dress can be worn at any time of the day for an elegant look. Feminine with its rounded neckline, it is also comfortable to wear thanks to its soft and lightweight milano knit.



NEOBLU Chloé
p165

An essential piece in the women's wardrobe and suitable for all body types, the A-line skirt offers an elegant image to the women who wear it. With its invisible closure and milano knit, it has a perfect drape.

RWS Wool

The merino wool used in the NEOBLU collection sweaters is certified RWS (Responsible Wool Standard). This guarantees full traceability of the wool from certified farms. This certification commits breeders and farmers to ensuring animal welfare throughout their lives and to good management of agricultural land and biodiversity. It is also a guarantee of respect for social practices as recommended by the International Labour Organization.

Recycled Polyester

The recycled polyester we use is made from used plastic bottles. After being collected, these bottles are washed and cut into chips, which are then melted and transformed into polyester yarn that can be woven into comfortable and high-quality clothing.

All of our recycled polyester material is GRS (Global Recycled Standard) certified, which guarantees not only the recycled content but also verifies compliance with environmental and social criteria. Only products made with a minimum of 50% recycled polyester are GRS certified.

SORONA®, an ecological alternative to down and feathers

To replace the filling of down jackets or other parkas made from animal down or feathers, we use an ecological alternative with remarkable performance in terms of warmth, care, and quality.
Made through a process of glucose extraction and fermentation, SORONA® requires less energy and water than other synthetic materials such as nylon, reducing our dependence on oil.
Moreover, this polymer is made from 37% renewable plant compounds (corn), making it a real ecological alternative to animal feathers.

Textile innovation:

perfectly stable light colours, even after going through a tunnel dryer with high temperatures!

SOL'S, always in tune with the market, innovates with a new dyeing process for light colours. This technology offers greater resistance to yellowing, even at high temperatures, guaranteeing our T-shirts durability and brilliance, to better meet our customers' needs.

The Origine France Garantie (OFG) label has been in existence since 2011. Its objective is to provide clear information to consumers about the origin of the labeled product.

In concrete terms, it guarantees that the place where the product acquires its essential characteristics is located in France and that at least 50% of the unit cost price is acquired in France. This label is awarded by authorized and independent certification bodies.

Regarding ATF products labeled OFG, the yarn, weaving, manufacturing, packaging, and accessories are produced in France.

MATERIAL GUIDE

RINGSPUN

Our T-shirts are knitted with superior quality Ringspun yarns, offering garments a soft handfeel that makes them pleasant to wear and perfect to print. It is the European quality answer to American looser and less sophisticated weaves that use open-end cotton.

THE FIBRES

COMBED COTTON

With its long fibres, it is so called because the yarn is combed to remove impurities and shorter fibres, making the material smoother and stronger. Perfect for digital printing.

ELASTANE

A very stretchy yarn that is mixed with cotton to provide greater elasticity and comfort.

VISCOSE

Viscose is a fibre obtained from plant cellulose. Visually very similar to silk, this material is much stronger. It is often found in sweaters or suits.

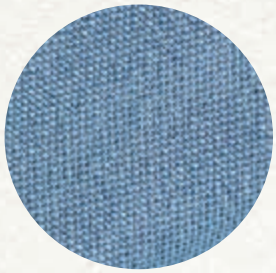
KNITS

JERSEY

This basic knitting makes the material soft, strong and supple with a smooth surface ideal for all customisation techniques.

MILANO

Milano fabric is a soft interlock jersey with excellent shape retention. The face has the appearance of jersey, whilst the reverse is ribbed. It is ideal for dresses and skirts.



PIQUÉ

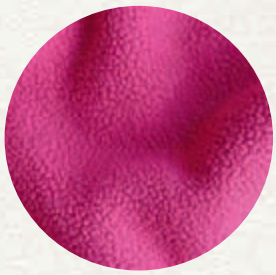
Very comfortable fabric with a honeycomb pattern, mainly used for polo shirts. Thanks to its combed cotton, our piqué has a particularly smooth surface perfect for all customisation techniques.

POLAR FLEECE

Polyester knit, thoroughly brushed on both sides, which resembles fleece. All our polar fleeces have an anti-pilling treatment, which prevents the formation of pills caused by friction.

FRENCH TERRY

French Terry has one flat side and the other with large loops. When the loops are in contact with the skin, they provide a better absorption of humidity and a greater comfort.



FLEECE

Heavy knit with polyester and cotton. Its inside surface is brushed to make it warm and soft.

WEAVES

POPLIN

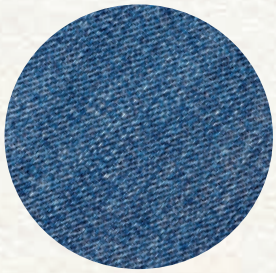
Poplin is a weave with a fine, tight rib. This supple fabric is very comfortable. It is mostly used for making shirts.

OXFORD

Soft, very strong fabric used for shirts. Coloured yarns are used for the warp while white yarns make the weft, emphasizing the plaiting effect.

TWILL

Cotton or cotton blend serge fabric with thin, diagonal ribs.

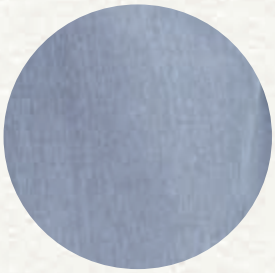


DENIM

High-quality, tightly woven fabric. Denim usually comprises a blue warp and a cream or white weft. Its twill weave forming diagonal lines makes it visually recognisable.

CANVAS

Also known as cretonne, this is a hardwearing fabric with a tight weave. Usually made from cotton yarns with a square structure, it is perfect for making bags.



SOFTSHELL

Material consisting of three layers: the outer layer is neoprene-based with added elastane, the inside layer is a micro fleece, with a technical layer in-between. The material is insulated for warmth, water-resistant, breathable and wind-proof.
